

One FREE MOVIE Rental with Video on Demand

A New Service from LaHarpe Telephone Company

La Harpe Video & Data Services Company, Inc. is pleased to announce the roll-out of our new Video on Demand Service! As it is activated on your account, each customer will get **one free movie** to try.

Simply press the MOVIES button on your remote, located on the next to the bottom row, second button from the left. Use your arrow keys to browse our list of movies from new releases to classics. Once you see a title you like, press the select button in the middle of the arrow keys and review the movie. Many movies have trailers that you can view for free at any time. You can now exit, or enter your PIN number to purchase the movie.

Your PIN number is located on the paperwork you received when you originally hooked up your service. If you can't find or remember your PIN, please call the office at 217-659-7721, and we will be happy to look it up for you.

Once you have entered the PIN number, your selection will begin to play. BILLING IS IMMEDIATE. You can use the fast forward, play, pause, stop, and reverse buttons on the remote to control your movie, just like on a Video Player. Your movie will be available to watch, as many times as you like, anytime for the period purchased, usually 24 hours. There are also free programs you can access from the menu at any time.
